**CIRCULAR RELATING TO THE ENROLLMENT IN OR TRANSFER TO
THE FLEET NAVAL RESERVE, UNITED STATES NAVAL RESERVE
FORCE.**

(For the information and guidance of commanding officers of ships, commanding officers of recruiting districts, and applicants.)

THE FLEET NAVAL RESERVE, CLASS 1.

1. ELIGIBILITY.

Only ex-service officers and men who are citizens of the United States are eligible.

Class 1 (a). Former officers of the United States Naval Service, including midshipmen (graduates of the Naval Academy) who have left the service under honorable conditions.

Class 1 (b). Men who have been, or may be, entitled to be honorably discharged from the Naval Service after one four-year term of enlistment or after a term of enlistment during minority. The last discharge from the Naval Service must have been honorable.

Class 1 (c). This subclass has a different status from that of any other class or subclass of men in the Naval Reserve Force, except subclass 1 (d), since men do not enroll and are not discharged, but are transferred from the regular Navy in this subclass. Their status more nearly corresponds to those on the retired list.

Any enlisted man with 16 years' naval service may, on the authority of the Secretary of the Navy, upon voluntary application on the expiration of his term of enlistment, if entitled to an honorable discharge, be transferred to the Fleet Naval Reserve in the rating in which then serving.

Class 1 (d). Any enlisted man with 20 or more years' naval service may be authorized by the Secretary of the Navy, in his discretion, to be transferred and continued in the Fleet Naval Reserve as in the previous case (Class 1-c) except that the transfer may be made at any time during the man's current enlistment.

NOTES.

a. A complete enlistment in the Navy during minority and any enlistment terminated within three months prior to expiration of the term of enlistment by special order of the Secretary of the Navy shall be considered as four years' service for purposes of enrollment, retirement, and pay of members of the Naval Reserve Force.

b. Members of Class 1 (c) and Class 1 (d) do not enroll. They must not be discharged from the Navy. They are transferred to the Fleet Naval Reserve from the active list and their service is continuous. Other classes enroll for four years, and to have continuous service they must reenroll within four months of expiration of their term of enrollment.

2. PAY OF THE FLEET NAVAL RESERVE.

Class 1. (a) The annual retainer pay of officers of the Fleet Naval Reserve shall be two months' base pay of the corresponding rank in the Navy.

Class 1. (b) The annual retainer pay of men shall be as follows:

	Per annum.
Men with less than 8 years' naval service-----	\$50
Men with 8 or more years and less than 12 years' naval service-----	72
Men with 12 years or more naval service-----	100

Class 1. (c) Shall receive one-third the base pay they were receiving at the close of their last naval service, plus all permanent additions thereto. This pay shall be increased 10 per cent for all men who may be credited with extraordinary heroism in the line of duty.

Class 1. (d) Shall receive one-half the base pay they were receiving at the close of their last naval service, plus all permanent additions thereto. This pay shall be increased 10 per cent for all men who may be credited with extraordinary heroism in the line of duty or whose average marks in conduct for 20 years or more shall not be less than 95 per cent of the maximum.

NOTES.

a. Officers and men enrolling in the Fleet Naval Reserve within four months of the date of the termination of their last naval service or reenrolling within four months of the date of their last term of enrollment shall receive an increase of 25 per cent of their base retainer pay for each such enrollment.

b. Men who have enrolled in the Fleet Naval Reserve within four months of the date of their discharge from the naval service and who reenlist in the regular naval service within four months of the date of discharge from the Fleet Naval Reserve shall be entitled to the same gratuity and additional pay as

though they had reenlisted in the regular service within four months from discharge. Men enrolling in the Fleet Naval Reserve and later reenlisting in the regular Navy, as explained above, do not lose the advantage of continuous service.

c. Reenrollment increases the pay of class 1 (a) and class 1 (b). Class 1 (c) and class 1 (d) are transferred to the Naval Reserve Force, and the pay of these two classes is not increased by service in the Naval Reserve Force.

d. When actively employed, the pay of men in the Fleet Naval Reserve shall be the same as the pay of men of the regular Navy on active duty of corresponding rank or rating and of the same length of service.

e. Retainer pay is *in addition* to active pay.

f. Upon first reporting for active service for training, officers receive a uniform gratuity of \$50; men, \$30. Upon reporting for active service in time of war or national emergency the uniform gratuity will be \$150 for officers and \$60 for men, less any previous uniform gratuity credited during the then current enrollment. (This uniform gratuity is given for each enrollment.) Should a member sever his connection with the service without compulsion on the part of the Government before the expiration of his term of enrollment, the amount so credited shall be deducted from any money that may be, or may become, due him. Members of Class 1 (c) and Class 1 (d) do not receive uniform gratuity.

g. Officers and men of the Fleet Naval Reserve will have their retainer pay accounts carried by the disbursing officer, Bureau Supplies and Accounts, and will be paid quarterly by check.

h. Pay penalties are given under paragraph 3.

i. For retired pay, refer to paragraph 4 (l) and 4 (m).

3. DUTIES AND REQUIREMENTS OF THE FLEET NAVAL RESERVE.

(a) Three months' active duty each enrollment. This does not apply to Class 1 (c) and Class 1 (d).

The Secretary of the Navy is authorized to assign officers and men to active duty on application. This also applies to men of Class 1 (c) and Class 1 (d).
